

Equality, Fairness and Rights Impact Assessment (EFRIA)

The Equality, Fairness and Rights Impact Assessment (EFRIA) is one of our specific duties to [assess the impact](#) of applying a new or revised policy or practice against the needs of the General Equality Duty. This means East Renfrewshire Council must be mindful when assessing impact against these needs to:

- ensure the policy does not discriminate unlawfully
- consider how the policy might better advance equality of opportunity
- consider whether the policy will affect good relations between different groups

The Fairer Scotland Duty places a legal responsibility on particular public bodies in Scotland to actively consider ('pay due regard' to) how they can reduce inequalities of outcome caused by socioeconomic disadvantage, when making strategic decisions. The UN Convention of the Rights of the Child (UNCRC) is an international human rights treaty which sets out the rights every child has. The Scottish Government is currently seeking to incorporate the UNCRC into Scot's law

The Equality, Fairness and Rights Impact assessment considers how a policy* could impact on the needs of individuals protected by the [Public Sector Equality Duty](#), [the Fairer Scotland Duty](#) and the [UN Convention of the Rights of the Child](#).

Name of policy*:	Changes to School Crossing Patrol Service
Description of policy:	Proposal to amend the current provision of School Crossing Patrol (SCP), with some locations being removed and replaced by suitable crossing facilities.
Why is the policy required?	It allows East Renfrewshire to strengthen the road safety in key locations that are deemed not to require the presence of SCP staff. It also enables revenue savings.
Date EFRIA completed:	13 – November - 2023
Completed by:	Fernando Fernandez
Lead officer for policy:	John Marley
Department:	Strategic Transport Services

*The term 'policy' covers any work or function of East Renfrewshire Council i.e. customer and service delivery, staffing, criteria, practices, proposals, activities and decision-making

Guidance – please read

Section 1

This section enables you to determine if a full assessment is required. If a full assessment is not required, this must be clearly stated in **Section 9** of the form.

Section **2-8** is the full assessment covering the sections listed below:

2	Engagement and Consultation Give details of how different groups have been consulted about the policy.
3	Impact on individuals or groups with protected characteristics How will the policy impact individuals or groups who fall under one of the nine protected characteristics: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation?
4	Impact on socio-economic disadvantage How will the policy impact individuals or groups disadvantaged by poverty, low income, homelessness or lack of or low-level educational qualifications?
5	Impact on Children and Young People How will the policy impact on the rights and needs of children and young people?
6	Contractors and suppliers Will the policy be delivered by any contractors or suppliers in full or partially?
7	Outcome of assessment and action plan What is your decision based on the assessment and are there any mitigations or actions that need to be addressed?
8	Approval Details of when and who approved the policy.

Section 9 should only be completed where the screening shows no assessment is required

When completing the assessment you must consider relevant evidence, including information received from equality groups. This evidence should inform the result of your impact assessment. You're required to take action to address any issues identified, such as removing or mitigating any negative impacts, where possible, and enhancing any potential for positive impact. If any adverse impact could result in unlawful discrimination, the policy must be fully reviewed and amended.

All impact assessments will be published on the Council website

Screening

This section should be completed to establish if a full assessment is required.

1.1 What is the nature of the work or activity?	
Select a category from below that explains the work or activity you are doing.

➤ If the policy will have an impact on individuals and/or you have selected 'yes or don't know' to section 1.3, complete the full assessment. **GO TO SECTION 2**

Engagement and Consultation

This section will assess how the policy is being communicated to certain groups and how you have consulted them.

2.1 How have individuals (incl. children & young people) who might be affected by the policy been consulted or involved?

This can include a summary of findings from recent consultations, surveys, user research or customer testing that has been carried out. Include dates and information.

The proposed changes have been discussed with the Facilities Management (FM) team (part of the Education Department). The input of the FM team is considered representative of the interests of school pupils and families.

2.2 How will you communicate information about this policy to individuals who have: hearing and/or sight loss; English as an additional language; are digitally excluded; have literacy/numeracy barriers?

Think about how you will communicate information about the policy to the above individuals. This may include printed materials being accessible in other formats, e.g. Braille, easy to read, translated in other languages. More information can be found [here](#).

The STS team will ensure prompt and timely communication with the Education Department. This will inform of upcoming changes to the SCP provision and/or the delivery of remedial works. Once received by the Education Department, this information should be passed on to pupils, families and carers before changes take place.

We will ensure all communication and accessibility procedures are followed as dictated by East Renfrewshire Council.

Impact on groups with protected characteristics

This section will assess if the policy has potential to impact individuals with protected characteristics. You should consider any evidence or information

you have on how it will affect different groups of individuals, both positively and negatively.

Below is a suggested list of sources:

- Input from local Councillors
- Findings from engagement exercise and consultations.
- Information or feedback from groups of individuals, such as equality interest organisations or groups who speak on behalf of others
- National, regional or local statistics
- Analysis of enquiries or complaints from customers
- Recommendations from inspections or audits
- National or regional research to identify similar issues
- Comparisons with similar policies in other departments or authorities to identify similar issues

You may want to consider collecting new evidence that you don't have but think will be relevant. For example: setting up meetings or focus groups, carrying out user research.

3.1 Are there known inequalities within the policy?

For example: barriers to transport for some groups; opening hours and location, organisational pay, terms or conditions; how public information is provided?

There are no known inequalities

3.2 Use the table below to consider how the policy may impact on a particular group with protected characteristics through reviewing the evidence, experience and needs of this group

Characteristics/circumstances	Evidence, experience and needs- outline any data or research that shows how this group may be impacted (include sources)	Will the impact on this group be positive, neutral or negative and why?
Age		

Disability or long term health condition		
Race		
Sex		
Gender reassignment		
Marriage/Civil Partnership (only applicable to Council employment policy)		
Pregnancy / Maternity		
Religion / Belief		
Sexual orientation		
Providing unpaid care		
Any other relevant groups e.g. unemployed people, people experiencing homelessness, care leavers, people involved in the criminal justice system, people with literacy/numeracy barriers, people living in rural communities.		

3.3 In what ways, if any, would this policy help to eliminate discrimination or undermine it?

Discrimination means treating individuals differently from others. For example, not recruiting someone as they are deemed too old/young; or a support group running on an upper floor with no lift access will discriminate against people with mobility issues or wheelchair users

The proposed interventions will improve road safety for all users throughout the day. The current provision is limited to times when pupils are likely to travel to and from schools (provision is currently around 10 hours per week)

Where applicable, the new infrastructure will include accessibility improvements such as dropped kerbs and tactile pavement.

3.4 In what ways, if any, would this policy advance or undermine equality of opportunity?

This is when individuals from different backgrounds are treated fairly through providing an equal footing or level playfield to achieve outcomes For example, children who have additional support needs are provided with teaching support to fully participate in the school curriculum or a deaf BSL user is provided with a BSL interpreter at health appointments.

N/A

3.5 In what ways, if any, would this policy foster or undermine good relations between groups of individuals?

Consider aspects that may tackle prejudice or promote understanding between different groups. For example, ensuring new arrivals and refugees are given supports to integrate within local communities or an LGBTQI+ youth group provide training on LGBTQI+ experiences to a local faith group

N/A

[Impact on socio-economic disadvantage](#)

This section will assess how the policy may impact socio-economic disadvantage for individuals.

Socio-economic disadvantage is where an individual is disadvantaged by poverty, low income, homelessness or lack of or low-level educational qualifications. Socio-economic disadvantage can be experienced in both geographical communities and communities of interest i.e. a group that share a common characteristic or circumstance. In East Renfrewshire there are a number of communities, known as locality planning areas, where people are at greater risk of experiencing socio-economic disadvantage including,

- Barrhead – Dunterlie, East Arthurlie and Dovecothall
- Auchenback
- Neilston
- Thornliebank

Consider the policy itself and the way it will be implemented. How will this deliver different experiences for individuals in East Renfrewshire?

4.1 In the section below consider how the policy may impact socio-economic disadvantage through reviewing the evidence, experience and needs of this group

Characteristics/circumstances	Evidence, experience and needs- outline any data or research that shows how this group may be impacted (include sources)	Will the impact on this group be positive, neutral or negative and why?
Socio-economic		

4.2 Consider the impact outline in section 4.1, In what way would the policy alleviate or increase inequalities in socio-economic disadvantage?

Consider common inequalities such as poorer skills and attainment; lower paid and less secure work; greater chance of being a victim of crime; less chance of being treated with dignity and respect; lower healthy life expectancy; lower feeling of control over decisions that affect you.

N/A

4.3 What opportunities are there within this policy and the way it will be implemented to promote inclusion, participation, dignity and empowerment of people experiencing socio-economic disadvantage?

For example, a new health centre is being built and considers affordability of public transport options for residents.

N/A

4.4 Is there anything in particular that will be done to address the multiple inequalities experienced by some people in Auchenback, Barrhead, Neilston and Thornliebank?

More information on specific locations can be found in the appendix to the cabinet paper.

Impact on Children and Young People

This section must be completed if any potential impact on children and young individuals up to the age of 18 have been identified in sections 1-4.

5.1 Are there known impacts on children and young people within the subject matter of the policy?

For example, changes to out-of-school services, employment support for parents, play parks.

The proposed interventions will change the provision of crossing opportunities for children travelling to and from schools. While some locations will see the School Crossing Patrol (SCP) removed, the delivery of improved crossing facilities should enhance the road safety for school pupils.

If there is no impact on children and young people GO TO SECTION 6

5.2 In the section below outline the UN Convention on the Rights of the Child (UNCRC) General principle that is relevant, the particular groups of children that will be affected and how this will impact them

Which [General Principles of UNCRC](#) are relevant to this policy/measure?

Tick all that apply

Which particular groups of children and young people are affected by this policy? (e.g. young children, children with disabilities, children living in poverty, children in care, young people who offend).

**Article 2
Non-discrimination**
Children should not be discriminated against in the enjoyment of their rights. No child should be discriminated against because of the situation or status of their parent/carer(s).

**Article 3
Best interests of the child**
Every decision and action taken relating to a child must be in their best interests. Governments must take all appropriate legislative and administrative measures to ensure that children have the protection and care necessary for their wellbeing - and that the institutions,

Primary school pupils
Other young people using the location

services and facilities responsible for their care and protection conform with established standards.		
Article 6 Life, survival and development Every child has a right to life and to develop to their full potential.	X	Primary school pupils Other young people using the location
Article 12 Respect for the views of the child Every child has a right to express their views and have them given due weight in accordance with their age and maturity. Children should be provided with the opportunity to be heard, either directly or through a representative or appropriate body.	<input type="checkbox"/>	
Which additional articles are relevant to this policy/measure? List all that apply		

In relation to the articles identified above, explain how the impact will be positive, negative or neutral.

Relevant identified Article of UNCRC	Impact category (Positive/Negative/Neutral)	Assessment of impact (including consideration of whether the policy might impact different groups of children and young people in any other way).
Article 3	Positive	The enhancement of crossing facilities near schools supports the best interests of children. Improvements to road safety

		<p>and accessibility to educational premises are considered beneficial for users in school age.</p> <p>Additionally, the availability of safer crossing points outside of school times supports the health and wellbeing of children and their ability to travel safely.</p>
Article 6	Positive	Providing safer interactions between children and road traffic vehicles is essential to reduce casualties, accidents and near misses.

5.3 What opportunities are there within this policy to advance or undermine the rights of children and young people?

Explain how the policy can strengthen or weaken the rights of children and young individuals

Providing safer crossing facilities can improve the independence of children and young people, and encourage better travel habits.

5.4 What opportunities are there within this policy to protect and promote the wellbeing of children and young people?

For example promoting physical activity and healthy eating.

The delivery of better crossing infrastructure can encourage higher uptake of walking for local journeys, increasing physical activity of children and young people.

Contractors and suppliers

6.1 Will the policy be carried out by contractors or suppliers?

This includes fully or partially. If yes, how will you incorporate equality expectations into the contract?

Construction is likely to be undertaken by external contractors, but might be absorbed by Road Contracting Unit (RCU) if their workload permits.

Outcome of assessment and action plan

You have completed sections 1-6 above and assessed the impact of the policy on individuals with protected characteristics, those experiencing socio-economic disadvantage and children and young people. The following section outlines your decision based on this assessment, mitigations and actions that can be taken to reduce any negative impacts.

7.1 Having assessed the impact of the policy under sections 3,4 and 5 select the most appropriate outcome

Which option below best describes your next steps?

Continue the policy as is

Adjust the policy

Stop the policy

7.2 Are there any significant and relevant information gaps that have not been filled during the development of this policy and how do you plan to address these during the life of the policy?

7.3 Briefly summarise how your evidence and assessment demonstrates any potential impacts, both positive and negative, on groups with protected characteristics from this policy?

We believe the changes to the SCP provision will create an improved environment for people walking. For locations where no additional infrastructure is provided to replace SCP services, we expect no negative impact for users due to road configuration and safety performance of the network.

7.4 Briefly summarise how your evidence and assessment demonstrates any potential impact, both positive and negative, on individuals and communities experiencing socio-economic disadvantage from this policy?

7.5 Briefly summarise how your evidence and assessment demonstrates any potential impacts, both positive and negative, on the rights of children and young people from this policy?

The proposed changes focus on areas immediately adjacent to educational facilities. Children and young people travelling to and from these sites will be the most directly impacted by these improvements, with the additional benefit to road safety outside of school hours.

7.6 How long will this policy be in place and when is it scheduled for review?

Is this a temporary or permanent change and are there plans to review the policy?

The interventions are permanent

7.7 Based on the findings from this impact assessment, outline any mitigating actions that will reduce the impact caused by the policy on individuals, including children and young people. The actions should also outline the communication and implementation of the policy.

Identified adverse impact	Mitigating actions	Timeline	Responsible person
Lack of communication of changes	Produce timely notice to school staff to be passed on to children, parents and carers before changes are carried out	Depending on location	Strategic Transport Services team
