PERFORMANCE AND AUDIT COMMITTEE

27 September 2023

Report by Chief Financial Officer

IJB STRATEGIC RISK REGISTER UPDATE

PURPOSE OF REPORT

1. This report provides the Performance and Audit Committee with an update on the IJB Strategic Risk Register.

RECOMMENDATION

2. Performance and Audit Committee is asked to note and comment on the IJB Strategic Risk Register.

BACKGROUND

3. In accordance with the agreed monitoring policy this report provides the Performance and Audit Committee with an update on the strategic risk register.
4. Good practice in the area of risk management suggest that a risk register should contain between six to eight of the most significant risk to make it a useful working document.
5. The risk register uses a simple, clear and effective 4 x 4 likelihood and severity risk matrix as shown below.

Likelihood	Score								
Certain	4	Low (Green)		Medium (Yellow)		High (Red)		High (Red)	
Likely / probable	3	Low (Green)		Medium (Yellow)		Medium (Yellow)		High (Red)	
Possible / could happen	2	Low (Green)		Low (Green)		Medium (Yellow)		Medium (Yellow)	
Unlikely	1	Low (Green)		Low (Green)		Low (Green)		Low (Green)	
Impact		Minor	1	Significant	2	Serious	3	Major	4

6. In normal circumstances the policy states the tolerance for risk is as follows:

Risk Score	Overall rating
11-16	High/Red/Unacceptable
5-10	Medium/Yellow/Tolerable
1-4	Low/Green/Acceptable

REPORT

7. The Strategic Risk Register is a 'live' document; the latest version is attached at Appendix 1.
8. The Strategic Risk Register was reported to the last meeting of the Performance and Audit Committee which took place on 29 March 2023. Since last reported:-
 - No new risks have been added, however the Covid-19 and Recovery risk has been changed to a wider Business Continuity risk.
 - No risks have been removed
 - 4 risk scores have changed (Workforce, Care at Home, Business Continuity, IT,)
 - 1 risk remains red post mitigation (Financial Sustainability)
9. Risk control measures have been reviewed and updated to reflect any proposed mitigation which has been completed, or where the expected date for completion has been extended. There has also been some changes to wording throughout.
10. Members are asked to note the following:-

Financial Sustainability

11. We have made reference in the risk description that we will require in year funding discussions with partners.
12. The Clinical Director is leading on our local prescribing action plan to attempt to mitigate cost pressures as far as possible, therefore this has been added to the planned mitigation.

Failure of a Provider

13. The draft Strategic Commissioning Plan which was approved by IJB on August and the HSCP leadership team will progress implementation which will include the redesign of care services locally. This will affect the current market share for some care services which may impact on financial sustainability within the marketplace.

Access to Primary Care

14. We are seeing a significant increase in GP registered population due to the new developments at Maidenhill and within Neilston and Barrhead area which is impacting on our locality Practices. This has resulted in a number of list closures and local list closures (level 1b escalation). There has also been a significant number of practices applying to reduce their catchment areas. The HSCP continues to support practices with sustainability issues through the use of the new GGC escalation framework.
15. We have taken part of the GGC wide property strategy and are looking at developing our own local East Renfrewshire strategy to support primary care within our community.
16. We are unable to identify or secure additional premises for PCIP staff, therefore this has been removed from the proposed mitigation. Unfortunately there are no GMS funds or capital investment available to support improvement grants this year.

Increase in frail/elderly population

17. We have increased the current score to 12 (red) due to the increasing demand and complexity, particularly within our older population and the resultant increased in demand for health and social care services. There are specific pressures on social care, equipment and rehabilitation which is currently significantly impacting on our budget for these service areas.
18. We have strengthened the management oversight of equipment requests and are progressing targeted initiatives to better understand and mitigate budgetary risk in this service area.

Workforce Planning and Change

19. The overall workforce risk remains high due to the ongoing capacity constraints and challenges within mental health services, however the board wide Mental Health Strategy has recently been approved by the NHS Corporate Management Team and we have developed our own local interim workforce plan to minimise our retention and recruitment risks.
20. We are also exploring a carefully managed voluntary redundancy process as part of our wider redesign of services to support savings delivery.

In-house Care at Home Service

21. Redesign work has recommenced with oversight from a programme board chaired by the Chief Officer.
22. Management of absence within the service is a continued priority in line with organisational policy.

Analogue

23. To date, 49% of Telecare customers have been transferred from an analogue to a digital alarm unit.
24. A local risk assessment group was established in the summer which is exploring solutions around connectivity and loss of signal issues and developing local contingency plans. The group is also escalating concerns and sharing potential solutions with the Scottish Government Digital Office.
25. We have recently achieved the GOLD Level 1 Excellence Award through the Scottish Government Digital Office with both our Alarm Receiving Centre fully upgraded to Digital and our client base over 20% fully digital demonstrating the standards we have now met through our project endeavours.

Post Mitigation - Red and Significant Risks Exception Report

26. Risks which score between 11-16 and rated as High/Red/Unacceptable and those which the Health and Social Care Partnership Management Team considers significant, following mitigation, should be brought to attention of the Performance and Audit Committee by an 'exception report'.

Financial Sustainability

27. As noted above, pre and post mitigation remains unchanged and the risk has been updated as noted above.
28. There remains risk that the HSCP could become unsustainable due to one of the following causes:
- Unable to deliver in full the existing savings on a recurring basis
 - Unable to remain within operational budget as a result of demand and capacity pressures
 - Unable to influence future funding to recognise demographic and other pressures, or realise future efficiencies and savings
 - Implications from hosted services should current arrangements change
 - Prescribing volatility
 - Any unfunded Covid-19 costs will add to our pressures

RECOMMENDATIONS

29. Performance and Audit Committee is asked to note and comment on the IJB Strategic Risk Register.

4	C	Financial Sustainability															
		<p>Risk of being unsustainable due to one of the following causes:</p> <p>1) Unable to deliver in full the existing savings and achieve new savings to deliver a balanced budget and/or unable to meet demand pressures for statutory services. This is further impacted by the diminished earmarked reserves held. This will require in year funding discussions with partners</p> <p>2) Unable to influence future funding to recognise demographic and other pressures, or realise future efficiencies & savings.</p> <p>3) Unable to meet financial pressures within prescribing, including influence of GP prescribers, including demographic changes, economic and distribution factors.</p> <p>4) Financial Impacts relating to Brexit and other wider economic issues. Financial risks relate to staffing, purchase of care, drugs, equipment, consumables and food and utilities/other inflation</p> <p>5) Financial risks relating to Covid-19 following cessation of support funding, There remains financial implications to the IJB with costs such as staff cover in any service where an outbreak of</p>	<p>The CFO provides regular financial advice and reporting to IJB, including savings progress and operational cost pressures.</p> <p>Monitoring for COVID 19 related costs will be maintained following cessation of support funding so we can inform future planning.</p> <p>Budget seminars are held with IJB Members.</p> <p>The regular budget updates and medium term financial plan set out funding pressures and scenarios. The HSCP is involved in the budget setting process with each of our partners.</p> <p>Medium Term Financial Plan latest revision June 2023</p> <p>A local network and the National CFO Section meeting provide a discussion and decision making forum for wider issues impacting on partnerships, including areas such as prescribing, hosted services, savings challenges and cost pressures from service delivery.</p> <p>The use of earmarked reserves allowed us to deal with prescribing and other costs volatility in any one year. This is diminished and we have limited reserves to support savings delivery over time.</p> <p>Review of hosted services is ongoing and this is a longer term review across all six HSCPs within NHS GGC.</p>	3	4	12	<p>Monitor hosted service arrangements – ongoing and longer.</p> <p>Refresh Medium Term Financial Plan for any significant changes during 2023/24 (including impact of fuel, utilities, pay award, prescribing short supply and other inflation costs) along with all other implications emerging or crystallising during the year.</p> <p>Continue to develop the tripartite financial planning discussions with partners as included in our Strategic Improvement Action Plan.</p> <p>Covid funding exit strategy is in place locally to manage the cessation of Covid support funding.</p> <p>Benchmark our local position with similar HSCP and / or national position and challenges</p> <p>Implement actions from local prescribing action plan</p>	31/03/2025	Ongoing	Ongoing	31/03/2023	30/09/2023	31/03/2024	3	4	12	Chief Financial Officer

		<p>the virus impacts on capacity. The longer term financial impact is unclear</p> <p>6) Complexity of funding sources with some allocations late in the year and some instability from non-recurring funding.</p>	<p>Ongoing monitoring of wider economic factors and inflation impacts</p> <p>Regular monitoring and planning combined with our reserves strategy, albeit diminishing, allows us to maximise funding streams.</p>
