Unwanted Fire Alarm Signals by Ward (% share)

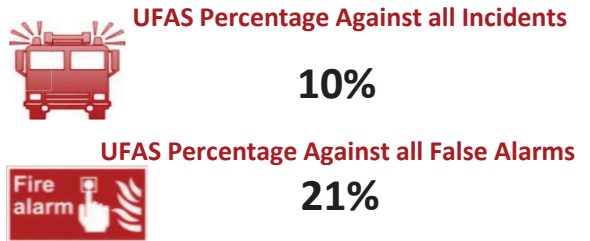

Unwanted Fire Alarm Signals by Time of Day

Unwanted Fire Alarm Signals - Top 5 Premises

Unwanted Fire Alarm Signals Activity Ratios

Human Influence and Alarm Activations

Average Unwanted Fire Alarm Signals per Day

It is positive to report a reduction of 71% against the year on year indicator for UFAS and a 21% decrease against the three year average. However, it is disappointing to note again that the majority of UFAS incidents are avoidable and caused by human error or faulty equipment predominantly within the care setting in this reporting period.
